MONDAY, JUNE 4, 1866.

THERE have been three hundred and seventy fires in New York during the last five months.

FORT ERIE, which the Fenians captured, *not* a fort, but a small town nearly opposite Buffalo, on the Canada side.

THE Presidential Guillotine is briskly at work in Michigan. Among the prominent victims is Mr. Joseph Bennett, assessor at Detroit.

IT is now authoritatively stated that the Government will not be prepared for the trial of Jeff. Davis at the approaching June term at Richmond—the inference from which is, that the trial cannot come off earlier than October.

A WASHINGTON TELEGRAM to the Philadelphia *Inquirer* predicts that the Cleveland and Mahoning Bill, and the Pittsburgh and Connellsville Bill, which passed the House on Thursday last, will not get through the Senate. Doubtless "the wish was father to the thought."

THE Republicans of Lawrence county have re-nominated Hon. G. V. Lawrence for Congress; Wm. C. Harrison for Assembly; Samuel Taylor for Associate Judge; Jacob Haus for Prothonotary; and Asa Eckles for Commissioner. The resolutions deplore the contest between the President and Congress, but assert the authority of the latter.

Be On the Alert! Danger is at Hand.
This has been a sickly season. The medical faculty prophesy evil in the future. They think pestilence is on the wing for America. Suppose this to be true, what is the best defense against it? REDOUBLED NERVOUS VIGOR. This is the only protection against PANIC, as well as against the PRINCIPLE OF INFECTION. Why do not those who predict the epidemic propose an adequate preventive? There IS one; a tonic, nervine and alterative, competent to shield the system against the subtle elements of disease, whether they float hither on the winds from distant lands; or rise like vapor from our own soil, or are incorporated with the universal fluid. This ONE PREVENTIVE, of which there is no duplicate among the compounds either of the Old World or the New, is

HOSTETTER'S STOMACH BITTERS.

Remember that it is a specific for all the complaints which lay the system open to visitations of deadly epidemics. If you are dyspeptic, it renews the vigor of your digestive powers, gives you appetite, and restores your cheerfulness. If you are nervous, it invigorates every fibre of your nervous system; from the base of the brain, where it begins, to the extremities, where it terminates. If you are bilious, it disciplines your unruly liver, and brings the action of that organ into harmony with the laws of health. It is, in short, an invigorant and alterative so powerful that Nature, with Hostetter's Bitters for her ally, may bid defiance alike to native malaria and foreign infection. If this enemy we hear of, this disease which is desolating Europe, is really bound hitherward, it behooves the *prudent to put on their armor*, to clothe themselves with invulnerability as far as human means will permit, by preparing the system for resistance with this pure vegetable antidote.

Hostetter's Bitters
Are sold wholesale and retail at very low rates by Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

DIED.

HUFFUM—At the residence of his parents, foot of Borough street, Lawrenceville, June 3d, at 5 o'clock A. M., CHARLIE ELLSWORTH, son of J. and A. M. Huffum, aged 4 years, 9 months and 10 days.

The funeral will take place MONDAY, June 4th, at 3 P. M. Carriages will leave W. H. Devore's, 104 Grant street, for the house, at 2 P. M.

MCFADDEN—At her residence, on Ohio Avenue, ELIZABETH, wife of Hugh McElveen, in the 28th year of her age.

The friends of the family are invited to attend the funeral on TUESDAY, 5th inst., at 1 o'clock.

SEDWICK—At Butler, Pa., April 7th, 1866, Miss EMMA K. SEDWICK, aged 23 years.

She died in great peace, trusting in the merits of the Redeemer, although she never formally united with the Church, for reasons which appeared to herself at least justifiable, yet she was deeply conscious of her condition and need of her only hope of salvation through faith in Christ. She was a diligent student of the Bible, which was evinced by her readiness of texts of Scripture in her ordinary conversation. She was accustomed through life to attend daily to secret prayer, and by no inconsiderable effort in her closet exercises became more and more spiritual, until she could exclaim with the Apostle, "The spirit itself beareth witness with our spirit that we are the children of God." Yet there was one part of her history, that in her last moments she regretted, and that was, that she had not made a public profession of religion by uniting with the church, and, letting the light shine before men, by so doing unexpectedly cast upon a bed of sickness, she concluded that it would avail but little at that late hour. Her character showed itself clearly in the following particulars. She was very affectionate. Her attachment to kindred and friends was very strong. Having once gained her confidence, that person might rely on Emma, though forsaken by all the world, or all beside, and she had the reward of her confidence being in her confidence had been misplaced. She was scrupulously honest. For this trait in her character she was loved and admired her most. It has been truly said, "That an honest man is the noblest work of God," and Emma as near as mortal can be was the full consummation of this

intellectual. And her mind though very vigorous, was well balanced by social and moral faculties, that gave her a symmetrical appearance. Her mind was not like a hot house plant. Such a mind thirsts for knowledge as "the heart pants for water brooks," and Emma, having had opportunities for obtaining it, was satisfied until she was qualified to circulate with dignity among the most intellectual classes of society, and to converse intelligently on any subject.

She had a deep *moral sense*. No one ever knew Emma to be guilty of an immorality, or ever heard her speak irreverently of sacred things. She would not suffer herself to engage in any amusement of doubtful morality. Hence she was firm on the safe side. Many of her companions can bear testimony to the statement that she frequently reproved them for engaging in things which her more quickened sense and correct judgment would decide to be wrong. She felt that her Bible required her to love her enemies, second by God, and well did she obey the dictates of this moral sense: with all her ability did she exert herself in the efforts to benefit itself, and many weary hours of toil has she endured in providing comforts for our gallant soldiers, but she has gone to her reward, and in recording her death we can but feel that one of the brightest lights has ceased to shine in this world, but we hope it shines more brightly above.

The Invasion of Canada.

A FIGHT AT FORT ERIE.

Slight Loss on Both Sides—Contradictory Reports.

GENERAL SWEENY AT ST. ALBANS.

Great Excitement in New York.

FENIAN FORCE GREATER THAN THE BRITISH.

"50,000 Fenians Wanted This Day—Headquarters, Canada."

BUFFALO, N. Y., June 2—2 P. M.—The afternoon papers publish the latest news from Ridgway, stating that the Canadian volunteers are being hard pushed by the Fenians, and that a number have been killed on both sides. From parties who have the best means of information, it is about concluded that the Fenian movement from this quarter is a feint, and that Pottsdam is to be the base of supplies, and the real point of attack is Prescott. General Barry, who has taken command of the frontier, says the Government will do the utmost to preserve order and prevent incursions into Canada. It is stated for a fact that the Fenian leaders encourage their men by saying the American Government is favorable to them. They will find out their mistake in this quarter. One company of regulars arrived here this noon.

BUFFALO, N. Y., June 2—1 P. M.—A gentleman just from the other side gives the following particulars: About eight hundred troops, all volunteers, left Port Colborne at 5:30 this morning, and marched to the Grand Trunk R. R. for Ridgway, and marched in the direction of Stevensville. They soon encountered a force of Fenians, now said to be from 2000 to 3000 strong, from Fort Erie. A battle ensued, and the Fenians were worsted. Our informant states that two of the English troops were killed, and another number wounded, and that the Fenians suffered to a greater extent. At all events there were about sixty taken prisoners and brought to Fort Erie. The Sauerwein bridge is said to be now rebuilt. It is reported that one of the prisoners stated that the Colonel Commanding the Fenians told them to save themselves the best way they could.

A gentleman just from the other side reports the following: the tug Robb, from Dunnville, with about sixty Fenian prisoners on board, was lying at Fort Erie dock at three o'clock P. M., when a body of about two thousand Fenians came over the hill and fired into the tug. The tug backed into the stream, and fired two shots while floating down. The Fenians then attacked a company of volunteer artillery posted in the town. After a brief resistance, the Canadians wavered, and finally gave way, retreating down the river bank, rallying at times. The tug steamed down, keeping abreast of the Canadians, and shortly after ceased, and the Canadians surrendered. The affair lasted about twenty minutes. The Fenians did not recapture their men. The fight is represented by a large number of persons on this side.

LATER.—The force in the Fort Erie fight was all volunteers, consisting of detachments of the Welland and Provincial Canal, and a Dunnville company of about eighty men. Captain King, of the Welland battery, was severely wounded in the thigh, and will have to undergo amputation. Two other volunteers were wounded, but none killed. It is reported a Fenian captain was killed, after surrendering.

LATER.—The *Courier* publishes the following list of killed and wounded Fenians: Thos. Gilman, Schuylkill, Pa., bayonet wound; Thos. Rafferty, Cincinnati, mortally wounded, in the stomach. Canadians: Ferguson Schofield, Port Colborne, severely, in the leg; John Bradley, in the leg; John Harshon, Port Colborne, severely, in the thigh and below the knee.

The Fenians, at last accounts, still held the place, but the force is too small to cope with the British regulars and volunteers now on the way from Chippewa to the scene of action. They had reached Black Creek, a few miles from Fort Erie. The British forces consists of the 47th, 26th, and 16th Royals and the Royal Artillery, and several companies of Canadian volunteers, numbering altogether not less than 2,500 or 3,000 men.

LATER.—In the battle at Ridgway, neither force had artillery, but some of the Canadians are said to have had breech-loading rifles, while the Fenians were armed mostly with ordinary muskets. Col. Starr, of Kentucky, is said to be in command of the Fenians. The report of casualties is contradictory. The number of men on both sides did not exceed 2,000. The accounts of parties who did witness, or pretended to have witnessed, the battle at Ridgway, are conflicting. It is almost impossible to get a true account. Some still assert that the Fenians drove the whole brigade to the Canadians, and others state just the contrary.

LATER—8:30 P. M.—A fight at Fort Erie is considered certain to-night. I can learn of no additions to the force that the Fenians have had for four hours. Surprise is expressed that no news has been received from other points of any demonstrations. Somebody is going to come to time, and these Fort Erie Fenians will be sacrificed, as they have no supplies and must be hopeless of any success in this region, as the British force is concentrating around them.

NEW YORK, June 2.—The *Herald's* special from Toronto, C. W., says: "There will be a wildest excitement on the streets when the news of the battle appeared, and business was entirely suspended. Private dispatches are constantly arriving announcing the death of a prominent well-know citizen, and cause general gloom, as one after another falls in defense of his country. The operator, telegraphing from Fort Colborne at 11 o'clock, says: The battle commenced at eleven o'clock and was a pretty smart affair. Our men are retreating, but there is no doubt of the result before evening. Quite a number have been killed and wounded on both sides. There are ominous reports from St. Albans.

"Our brave volunteers have fallen back upon Port Colborne, and intend to fall back upon St. Catharines, if reinforcements do not arrive soon. It is reported that the 5th and 7th Royal Regiments and a battery of artillery have reached the battle-field and are driving the Fenians before them.

The Toronto Montreal special says that reliable intelligence has been received that General Sweeny is in position at St. Albans with a large force.

The special from St. Albans says he cannot get any reliable information. The reporters for the Boston papers say there are fifteen hundred men there, commanded by Colonel Conner. They have no arms in sight, but have orders to go into camp at Fairfield, five miles above St. Albans.

A lacrosse match between the Queen's Own has lost nineteen killed an l several wounded.

Another dispatch, from an operator below, says that the Fenians, in large numbers, are at Middleport, New York, opposite Cornwall, evidently bound for that place, twenty-eight miles distant. Ex-M. H. P. Daly is circulating a petition to the Government to proclaim martial law.

ST. ALBANS, VT., June 2.—Detachments of United States troops have arrived at Rouse's Point and Alburg, Lake Champlain, and Rouse's Point road, and will probably picket the frontier. Gen. Mahony is expected to-night with more Massachusetts troops. It will be composed of the troop- from that state. Gen. Sam Spears is in chief command, and the Fenians will not move at once from this point. There are arms in the town, which was as quiet as any country village on the Sabbath.

A special to the *Herald*, dated Ogdensburg, N. Y., June 2, says: The cases of arms which seize l at the depot here by the United States Deputy Marshal, this morning, consigned by express to a party at Malone.

BUFFALO, June 2.—It is stated there were about one hundred volunteers captured by the Fenians. There were three Fenians killed and two Canadian soldiers. Capt. King, who is a doctor at Welland, will probably lose his leg. He has by permission been brought to Buffalo. A well known Buffalo Fenian, named Baily, is on board badly wounded that he is not expected to recover. The Fenians are now encamped at the Old Fort, and picket the river down to the village of Fort Erie, a distance of two miles. Watch fires can be seen and apparently signals.

A United States Revenue Cutter has arrived this evening from Cleveland, and another is expected immediately. The river is patroled and orders given to fire on anything trying to cross; but the Fenians now in the neighborhood expect a determination to cross at all hazards. A prominent Fenian asserts that tomorrow will be a big day, and important news will be heard from other points. When the Fenians gobbled up and drove the Canadian volunteers at the Fort Erie fight, the spectators on this side cheered lustily. There is a doubtful rumor that Colonel O'Neil was slightly wounded.

BUFFALO, June 2.—From present appearances, and from the present position of the English troops, there will be no more engagement to-night, but it is apparently unavoidable early to-morrow.

WASHINGTON CITY, June 3.—A hundred Fenians by mail to Washington this week for the scene of war, and an additional number are prepared to follow.

The Fenian headquarters in this city for the sale of the Irish Republic has closed for want of patronage.

NEW YORK, June 2—MIDNIGHT.—Great excitement exists respecting the invasion of Canada by the Fenians. It is reported that one thousand armed Fenians left the city to-day for Canada, and that three thousand will depart for the Canadian frontier during the coming week. It is believed that the Fenian forces were receiving and from the disloyal portion of the Canadian population, and that the aggression movement has long been planned and will be entirely successful. Many enthusiastic Irishmen think most important results will follow the invasion of Canada.

The actual strength of the Fenian organizations in Canada is much greater than that of the opposing British forces, and that it will sweep all opposers before the present month is over. Stephens' adherents are greatly chagrined at what they regard as the too early striking of the blow to liberate Ireland, and declare that it will embarass operations in the Green Isle. Secret but energetic efforts are making to recruit troops in the city, and it is reported that large sums of money have already been contributed to the cause.

A man is marching in Broadway to-day, carrying a board on which are printed these words: "Fifty thousand Fenians wanted this day. Headquarters, Canada."

ALBANY, June 2.—A dispatch from Lockport this evening says about one hundred Fenians left there last night for the West. The people of Lockport are driving to the frontier to-night in anticipation of witnessing a battle between a body of Fenian and British troops, reported fifteen hundred strong, early to-morrow morning. The Fenians there are very active. They have been engaged in raising money to forward men.

Another detachment leaves at midnight for the scene of war. If the leaders had funds, they say they could send one thousand men forward in twenty-four hours.

Prominent Fenians here say that they anticipate stirring news to-morrow, but decline to even indicate from what quarter it may be expected.

ELMIRA, June 2.—Two companies of Fenians from Baltimore, and a company of sixty from Philadelphia, passed through this city to-day bound for the border.

LATER NEWS.

Fenians Evacuate Ft. Erie.

SEVEN HUNDRED CAPTURED BY U. S. BOATS.

Col. O'Neill and Staff Prisoners.

TWO BATTLES FOUGHT AND THE MEN WORN OUT.

No Artillery and No Reinforcements.

THE ENGLISH DEFEATED AT RIDGWAY.

BUFFALO, June 3—9 A. M.—The Fenian force evacuated Fort Erie last night, and most of them attempted to reach this shore, but only a small number succeeded, and about seven hundred were gobbled by the United States boats guarding the river, and are now prisoners under the steamer Michigan's guns at Black Rock. The English force under Colonel Peacock are now in possession of Fort Erie without a skirmish. The ultimate disposition of the prisoners is a matter of uncertainty, but the British Minister has been telegraphed to. Colonel O'Neill and staff have been captured.

It is reported that a small Fenian force left this neighborhood last night, destination unknown. Those that tried to reinforce their friends at Fort Erie were prevented by the United States picket boats.

We have conversed with some of the escaped Fenians, and they say that having no artillery, and they positively assert that they have had none, and finding the English troops with Armstrong guns closing round them, with no prospect of reinforcements, and ammunition, they concluded not to be gobbled, and perhaps hung, as it is anticipated those caught will be, so they got off the best way they could. The men were completely worn out, having fought two battles, (though the Fort Erie affair they only call a skirmish,) with little or nothing to eat, and no sleep for forty hours. It is believed that the English were defeated at Ridgway and driven away.

FROM WASHINGTON CITY.

President of Merchants' National Bank Arrested and Required to Give $200,000 Bail—Charge of Issuing Counterfeits for May—Rations Issued to Destitute People in Arkansas—Great Destitution and Suffering in Alabama.

WASHINGTON, June 2—Leonard Huyck, late President of the Merchants' National Bank, was arrested to-day on a warrant charging him with all the offences enumerated in the fifty-fifth section of the National Currency Act. The warrant was issued by the Comptroller of the Currency, who charges Huyck with having taken and misapplied $200,000 by paying it to L. P. Boyne & Co., of Baltimore, unlawfully and knowingly, mentally assisted in charge of the misappropriation of the amount is made in order to fix the amount of bail.

Another charge against Huyck is that he without authority endorsed as good a check for $51,000 on the Merchants National bank, on which thy person who drew it received that amount in the bills of that bank, when in fact the person had no funds on deposit, nor any claim upon it. Huyck appeared before the Justice with counsel, but waived an examination. The bail demanded required $200,000 of Huyck to-night, in custody of an officer, is seeking persons to become his surities. The bail was subsequently reduced the bail to $50,000.

The receipts from the Internal Revenue this week are over $3,000,000. The total receipts for May amount to nearly $22,000,000.

The Assistant Commissioner of the Freedmen's Bureau in the district of Missouri and Arkansas, reports that 50,000 rations will be estimated as necessary to be issued to the destitute people in Arkansas, as follows: Whites, 30,000; freedmen, 10,000.

The agent of the State of Alabama for the distribution of supplies to the destitute, says: Gentlemen of prominence send up the most earnest appeals for food, and the increased supply of food, and represent the wretched and suffering condition of their people. This destitution, which has so rapidly increased since last fall, is that the Fenians are now rather than diminish until something can be realized from the present growing crops.

FROM NEW YORK.

The Funeral of General Scott—No New Cases of Cholera—General Health as Good as Usual—Incendiary Gang—Departure of Twenty Steamers—Bird Shooting Contest.

NEW YORK, June 2.—The funeral of Lieutenant General Scott took place at West Point yesterday. The ceremonies were very imposing. General Grant took part in the proceedings, occupying his proper position in the line on foot. General Meade conducted the order of proceedings. Distinguished army and navy officers were the pall-bearers. About five thousand spectators witnessed the scene. Bishop Potter assisted at the religious ceremonies. Commodore Hull and Senator Morgan were present. There was a large attendance of distinguished men from the army, the navy and railroads, including deputations from the National Guard, from the army, the navy, and from many municipal governments. The following were the pall-bearers: Vice Admiral Farragut, Major General Meade, Brigadier Ringgold, Major Generals Cullum, Townsend Sanford, Van Vliet, Delafield and Meigs.

The remains were deposited in the cemetery of the institute in a superb coffin, surrounded with the stares and stripes, and received a salute from the cadets.

There are no new cases of cholera in the city. The two reported to have occurred here were sporadic, and cause no alarm. The general health of New York is quite as good as usual at this season.

The frequency of fires in New York has induced the belief that an organized band of incendiaries exists in the city, and police are instructed to be particularly vigilant.

Twenty steamers left this city to-day for foreign and seaboard cities.

The contest for double bird shooting was resumed this morning at Palmyra. E. Newell won the first prize, W. H. Cobb the second, and George J. Marsh the third. The Forrester Club, of Buffalo, carry off six out of the seven prizes given for shot-gun shooting.

The Freedmen Commissioners—Interesting Conference at Augusta Ga—Humanity and Kindness of Late Masters.

AUGUSTA, June 3.—Gens. Steadman and Fullerton held an interesting conference this afternoon with the freedmen in the Springfield church. A number of prominent citizens were present. The commissioners stated the object of the meeting briefly, and invited the freedmen to give their views pro and con. The freedmen testified to the kindness and justice of their late masters. Speeches were made by Gens. Steadman and Fullerton and Phillips, the freedmen's Bureau in Georgia appears to be better administered than in any other State, and equal justice is given the freedmen before the civil courts.

Important From Gen Grant—Militia to go to the Front—Gen. Barry in Command at Buffalo.

BUFFALO, June 2.—Lieut. General Grant passed west this noon. He sent the following telegram to Gen. Meade:

BUFFALO, June 2.—To Major General Meade, U. S. A., Philadelphia—General Barry is here. Assign him to general command from Buffalo to the mouth of the Niagara river. The State authorities should call out the militia on the frontier to prevent hostile expeditions leaving the United States, and to save private property from destruction by mobs.

U. S. GRANT,
Lieutenant General.

The Cholera at New York Quarantine—Twenty-Six New Cases Received on the Hospital Ship—A Case of Yellow Fever.

NEW YORK, June 2.—Twenty-six new cases of cholera were received on the hospital ship from the steamer Peruvina, and there have been eight deaths since the last report. There are now 101 cases in hospital.

The brig Bertha arrived to-day from Ponicena last two men on the passage, and four are sick on board of yellow fever. The sick man is remaining on board the vessel, there being no hospital for that disease.

Four Steamboats Burned at St. Louis.

ST. LOUIS, June 1.—The steamers Ida, Handy, Boston and James Raymond, the two latter dismantled, were burned on the upper part of the levee early this morning. The Handy was owned by the Atlantic and Mississippi Steamship Company, valued at seventy-five thousand dollars, and insured for fifty-six thousand dollars in Cincinnati offices. The value of the other boats was not ascertained, but is small.

River at Louisville.

LOUISVILLE, June 1.—River falling slowly, with four feet in canal. Weather rainy.

The Number Captured Four Hundred instead of Seven Hundred—Instructions Concerning their Disposition Anxiously Awaited from the U. S. Government—Not Considered Safe to Take them to Buffalo, Escape Being Feared—The Niagara River Vigilantly Guarded—Reported Fenian Forces at Point Abide—Reported Arrest of the Buffalo "Head-Centre"—List of the Killed and Wounded in the Two Engagements.

BUFFALO, June 3, 1 P. M.—I have just returned from the United States steamer Michigan, which is anchored in the Niagara River, about four miles below here. A large flat boat is fastened to her, under her guns, having on board about four hundred men as near as could be guessed at, but not as many as seven hundred, as first stated. The officers are on board the Michigan, under guard.

Commander Bryson, of the Michigan, is anxiously awaiting instructions as to what he shall do with the prisoners. U. S. District Attorney Dartis is also awaiting instructions from Washington as to their disposition. It is considered unsafe to bring them here, as an effort might be made by their friends to release them.

There is considerable excitement in this city, but it is the general feeling that the Government have done their duty, and the people are glad that the Fenians have fallen in American hands, rather than have been captured by the British. A force, stated at from 250 to 1,500 men, left here last night in tugs and flat boats, probably to reinforce the Fenians, but owing to the excellent arrangements which had been made by the United States Attorney Dartes and General Barry in organizing the picket boats, they were obliged to turn back.

It is reported, but not confirmed, that a force of Fenians have landed at Point Abido, ten miles above here, in Lake Erie, and some fears are expressed that Collingwood is the point threatened.

It is stated that P. O. Day, the Head Centre of Buffalo, who is known as the prime mover of the Fenians in this region, has been arrested on the other side. This is not confirmed yet, but we know that the United States Attorney has such information.

A Grand Trunk Railway official informs us that a one-armed officer was arrested on the movement road to Canada supposed to be General Sweeny, but of course it is not.

A portion of two British Regiments, the 16th and 47th, with seven companies of volunteers and two guns, left the Grand Trunk R. R. for opposite here to repel any fresh invasion, but there will not be any from this place.

By order of General Grant, General Barry has had his military district extended, and it now embraces the northern frontier, from Lake Erie to Oswego. A large additional force of troops have been ordered to report to him here. A portion have already arrived. Previous to Gen. Barry's advent as Commander-in-this-frontier, no concert of action had been arranged, and General Dartis, the United District Attorney Dartes did all in his power, but by the complete system of arming tugs and picking flats for the Fenians, have been frustrated from reinforcing their friends and making any further advance upon Canada from this point.

A Fenian General Lynch, of Chicago, arrived in this city at ten o'clock last night from the West, and took command of the men here, to reinforce their friends on the Canada side.

These are the facts in the case, so far as the *Courier* gives the following list of killed and wounded in the two engagements, which is as correct as can now be obtained: Fenians —Edward Scuby, Cincinnati, killed; James Gerrighty, Cincinnati, Ohio, mortally wounded, and left on the field; Michael Porter, Buffalo, slightly wounded in the leg; Thos. Rafferty, wounded in the breast, and lying at the house of Mrs. Shauten; Thomas Gilborn, Schuylkill, Pennsylvania, wounded in the neck; Michael McLaughlin, Cincinnati, Ohio, in the eye; John Lynch, Ohio, in the thigh; Thos. Welsh, of Indiana, slightly; Thos. Rafferty, Cincinnati, Ohio, mortally wounded; Geo. Alexanderson, Madison county, Ind., in the thigh; James Keegan, Louisville, Ky., in the ankle; John Fenton, Ohio, in the abdomen; Matthew Crenty, Cincinnati, wounded in the hand; Michael Kelly, Tonnessee, in the arm; John Lynch, in the thigh; Michael Rafferty, Louisville, Ky., killed; Capt. Col. Bealmouth, killed; Capt. Richard S. King, Port Colbourne, Welland Valley, two wounds in the ankle and joint, mortally wounded, left to Buffalo, and leg amputated by Dr. Minor; John Haberson, Port Colbourne, Welland Valley, in the knee; John Brady, Welland Valley, in the knee; Capt. Tangy, Toronto, wounded in the knee; Malcom McCherno, Toronto, killed; Corporal Newborn, Toronto, through the hips.

The following additional is reported: E. K. Loregon, of Buffalo, wounded. Seven or eight men of the Buffalo regiment were wounded and one killed. The loss in the fight was twenty-five, the British about fifty, among whom were a number of officers. Five of the 17th regiment, Buffalo, were wounded. Capt. Richard S. King, of the Welland Canal Field Battery, who was brought to this side, had his foot amputated by Dr. Minor, of this city.

Wagner, one of the government informers, was stabbed at Howths, near Dublin, by a man named O'Connor, recently returned from America, and one of the confederate army, and was seriously wounded. The attempted assassin was arrested.

The Fenian flag has appeared in another part of Ireland, the county of Waterford.

FRANCE—The *Moniteur de Arme* says: Several journals having spoken of military preparations of France, we are authorized to declare all such rumors devoid of foundation. The reconciliation between the Emperor and Prince Napoleon is complete.

A modification of the French cabinet is again spoken of. The ministry and public instructor will probably be changed.

THE CHOLERA.

Excitement at Coney Island—Report that it is to be used for Quarantine—Deaths in New York Last Week—New Cholera Cases at Quarantine.

NEW YORK, June 3.—There is great excitement on Coney Island in consequence of a report that it is to be used for Quarantine. The owners of the property said to be selected, will, it is reported, cause a forcible resistance The mortality of deaths last week in New York, showed a material decrease over the previous week. The improvement is owing to greater care and cleanliness of the city.

Twelve new cases of cholera occurred to-day and five deaths on the hospital ship. Several bad cases occurred on the steamer Peruvian, and thirty cases were discharged on the Fortsmouth. The yellow fever patients are improving. Dr. Bissell says this is bad weather for cholera patients.

A south-east rain storm prevailed all day.

United States Court at Richmond—Jeff. Davis' Counsel on Hand and Ready to Proceed with His Trial—Application for Bail to be Submitted.

RICHMOND, June 3.—An adjourned session of the United States Court for the District of Virginia will commence in this city to-morrow, and Jeff. Davis' counsel has not yet arrived, but is expected in the morning.

J. T. Brady, of New York, Wm. B. Reed, of Philadelphia, and George H. Brown, of Baltimore, Associate Counsel for Jeff. Davis, arrived this morning and are stopping at the Exchange Hotel. E. O'Connor and George Shea will arrive in a day or two. The counsel will announce their readiness to proceed with the trial of Davis, and in the event of a postponement will submit an application for bail. District Attorney Chandler will probably not be present at this session of the Court, owing to the severe illness of a member of his family. Major Hunnicutt, Assistant District Attorney, will represent the Government.

Mr. Harrison, who was Davis' private secretary, arrived here this morning from New York.

Fenians Concentrating in Force at Cornwall—British Regulars and Volunteers Sent to Cornwall Canal.

CORNWALL, C. W., June 3.—The Fenians are concentrating here in force. No demonstrations have been made by them yet.

MONTREAL, June 3.—Two regiments of regulars, about five thousand volunteers, and three batteries of field artillery, and sixty men and officers from the war sloop Pylades, now in the harbor here, left here last night as a National Brigade, to protect the Cornwall Canal, and a large number of sailors are to follow. There are two men-of-war on the way from Quebec to this city.

The U. P. General Assembly.

The Assembly convened at nine o'clock on Saturday morning and was called to order by the Moderator, Rev. Dr. Kerr. Rev. Dr. Donaldson then offered a prayer to the Deity.

Rev. Dr. J. T. Pressley read the report of the Board of Church Extension, giving a detailed statment of the operations and labor of the Church during the past year. The report ended by congratulating the Assembly and the Church at large on the vigorous growth and strengthening of the Church by the extension of its field of operations and increasing membership. The report was received and referred to the appropriate Committee.

Ten o'clock having arrived, the order of the day—the reception of the Commissioner from the Old School Presbyterian General Assembly, now in session at St. Louis,—was called for.

The Moderator then introduced the Rev. Dr. Donaldson, of the U. S. Assembly, who delivered a brief address, extending the congratulations and Christian fellowship of the body he represented to the U. P. General Assembly. Dr. Kerr, in behalf of the Assembly, made a few remarks, extending in return the congratulations of the Assembly to the body represented by the Commissioner. The speaker especially congratulated the O. S. Assembly on the posstion taken at its present session on freedom and loyalty, which he declared not only retterated the deliverance of 1818, but rendered it indellible. This position could not fail to unite the two bodies more closely, to bring about a happier, better and more efficient co-operation, and to enable them to present an unbroken front in the army of the Lord.

The order of the day disposed of, the Rev. D. G. Bradford read the report of the Board of Education. Rev. Dr. Clark submitted the report of the Board of Freedmen's Missions. The reports were referred to the appropriate committees.

The report of the Treasurer of the Synod was presented, and referred to the Finance Committee.

The clerk read the annual report of the Board of Publication, giving an account of the operations of the Board during the past year, Referred.

A memorial to the Assembly from Rev. W. G. McCune was presented. The memorialist is the author of a work entitled a "Review of Church Fellowship," one chapter of which relates to Freemasonry. In that chapter the author is charged by Presbyteries with "determined and persistent opposition" to the testimony of the church. The memorialist confended that the memorials of the Presbyteries had not placed a proper construction upon his language, and entered into a defense of his position at some length. The paper was returned to the memorialist, at his request, to be retained by him until after the Judiciary Committee had reported on the memorials from Presbyteries on the subject.

The Committee on Foreign Missions submitted a partial report, covering resolutions authorizing the immediate reinforcement of the missions of India with new gagi and sallies well calculated to awaken the sensibilities of even the most morose.

At Pebble's Varieties several new stars will appear dring the week, in addition to the attractive company already there. The entertainment is first-class in every particular, and should be patronized by the amusement deserve a liberal support from the public.

A Connubial Cloud.—Bridget Conklin on Saturday appeared before Justice Ammon, of East Birmingham, and entered a charge of surety of the peace against her husband, Thomas Conklin, who, she represents, is in the habit of beating and abusing her. Constable Wood dispatched after the ungallant Benedict, but on reaching the house found him seated beside his wife, who not only refused to allow the officer to take her husband into custody, but threatened if the limb of the law did not quickly vanish, she would assist his departure with a certain piece of morroco in her possession. Mr. Conklin, considering it being a large six, the officer thought it advisable not to further interrupt the twain in the enjoyment of the bliss which usually follows matrimonial conflicts.

Hearing in a Nuisance Case.—A hearing in the case of Adam Fleming, Edward Flood, Edward Flood, and Michael Cockran, accused with maintaining a nuisance on their premises in Mansfield, was had before Alderman Donaldson on Saturday afternoon. John M'Cain, Esq., appeared as counsel for the prosecutor, Joshua Stevenson, and J. H. Miller, Esq., for the defendants. Several witnesses were examined on both sides, when the proceedings were quashed by Stevenson withdrawing the charge. The defendants, however, complained of should be abated and the defendants pay the costs of prosecution.

Wonderful Escape.—On Saturday afternoon, in the vicinity of Wood's Run, a boy aged fifteen or sixteen years, (we did not learn his name) jumped on the express train of the Pittsburgh, Fort Wayne and Chicago Railroad, going west at the rate of about forty miles an hour, just as the Accommodation train coming east was passing on the other track. Fortunately to relate, the boy, in rebounding, alighted between the tracks on his head and shoulder, and, as the accommodation was passing, escaped without, apparently, having received any injury.

The New York "*Albion*" writes in very high terms of the new paper made by Barnard; they say: "The extra fine pointed pens of the carbonized metal, recently made by Charles Barnard, of London, are by far the best for "posting" we have ever used, not excepting any. Barnard's extra fine points, although extremely sharp nibbled, do not cut, through the paper, as ordinary pens frequently do, after a well defined stroke. To all who appreciate an excellent posting pen we can recommend Barnard's extra fine "carbonized" pens."

Soldiers' League.—At the last meeting of the Soldiers' League, the following officers were placed in nomination, to be voted for at the next meeting: For President—Gen. S. B. Sweitzer and S. B. M. Young. Vice Presidents —Gen. Charles Barnes, Capt. B. W. Morgan, Capt. J. F. Slagle, Solomon Hays, Capt. Robert Pollock. For Secretary—Charles J. M

WHAT IS MEANT?

Early last winter we came to the conclusion that President JOHNSON, Secretary SEWARD, and others, who were acting with them, meditate treachery to the party that confided in them, and to the principles they had professed to cherish. The lapse of time has only served to strengthen the positiveness of that conclusion and to augment the impregnability of the evidence by which it is fortified.

We are not so incredulous as to judge men by the motives they avow. The true test is the scope and drift of what they do. It is easy to assign specious and plausible reasons for actions. All the great historic criminals, who have preyed on nations rather than individuals, have done this. Nay it often happens that bad men are not fully conscious of the dominion evil motive have over them. Having determined that a particular act or policy would be beneficial to themselves, they cast about for reasons to appease self-reproach and to answer the complainings of others. Often they deceive themselves more completely than anybody else.

JOHNSON, SEWARD, MCCULLOCH, WELLES, BLAIR, DOOLITTLE, DIXON, RANDALL, and their associates, embarked in a scheme to demolish the Republican party, and build up another—a sort of political mosaic, composed of rebels, copperheads, democrats, and conservative Republicans—which they hoped would control the Government for many years to come. These men were not all acuated by the same motives. Some of them had doubtless attained through the successful prosecution of the war all the ends they contemplated in co-operating with the Republicans. Some, whose highest ambitions had been baffled, cherished an imaginary sense of slights and humiliations, and longed for revenge. Some were moved by lust of place and power, and thought this the surest way to clutch the coveted prize. And some, thrown by a fortuitous concourse of affairs into positions nature did not fit them for—easy, quiescent people, surprised at their own luck, and eager to retain it—were swept along by the magnetism or mastery stronger wills always exert over weaker.

It would be absurd to expect these men to avow their purpose, and disclose the means by which they were resolved to accomplish it. Principles and policies were put forward; and adroitly urged. But, by degrees, it became necessary to make a show of hands. No man who has given attention to political management doubts to-day but the President has a definite and cordial understanding with the leading Democrats, north and south, and is acting harmoniously with them. Mr. SEWARD, in his Auburn speech, admitted as much, though he strove to blunt the edge of the admission by wreathing it with dainty phraseologies.

What, then, remains for Republicans? Nothing, except to stand by their principles and maintain their honors. The declared principles of the party are not less true than before because of notable defections; nor are they less important to the welfare of the nation. We came into power through their defence. If adhering to them, it becomes necessary to go out, let us do it with the grace and dignity becoming a great party.

But we do not believe the Republican party is destined to defeat; and least of all in Pennsylvania. The omens are not in that direction. From all parts of the Commonwealth the tidings come that the Republicans are falling into line preparatory to the fall campaign, and mean to win a brilliant victory. There may be few laggards and sorehcads, but most of these will eventually shake off their lethargy and griefs, and take hold with their former earnestness. We heard last year and year before a good deal of the dangers that environed the Republican hosts; but results proved these croakings to be without foundation. Precisely so is it now. A magnificent triumph awaits us in the fall. Let us deserve and enjoy it.

DURING the debate in Parliament on the bombardment of Valparaiso, some of the speakers inveighed with great severity against the attack as a barbarous and cruel act. But Mr. Baillie Cochrane, who has a most unhappy faculty of recollecting some things which his countrymen have done, fired a heavy shot at the Under Secretary, Mr. Layard, and the other critics of Spain. He reminded Mr. Layard that it was only last year that he rose in his place to defend the bombardment of the defenseless town of Kagosima in Japan. Not only so, he could remember many debates in which honorable members had justified the bombardment of the defenseless cities. He told them how English cannon had bombarded Canton, causing immense loss of life, because Sir John Bowring was not admitted into the city in full uniform. He referred to the wanton destruction of Pekin, when the Emperor's palace was sacked, and property to the amount of millions of pounds was by an act of vandalism destroyed. Good memories may be pleasant, but Mr. Cochrane's was very unpleasant to some members of the Parliament.

WHEN the nomination of McKELVEY was before the Senate for consideration Mr. COWAN announced that the rejection of that gentleman for Marshal of the Western District would cost the Republican party nearly five thousand votes. He also stated that the rejection of WADE HAMPTON as Postmaster would cost the party three thousand votes. Mr. COWAN is the only man that "sees it."

JAMES K. KELLY, democratic candidate for Governor of Oregon, declares, in public speeches, that he is in favor of having the National Government pay for all the slaves emancipated.

THE National *Intelligencer* suspects Congress of an intention to pass the Colora. o bill over the President's Veto.

THE Canadians are more indignant than alarmed at the new Fenian demonstration.

MEETING OF RELIGIOUS BODIES.

OLD SCHOOL.

Having already given a brief synopsis of the proceedings of the Old and New School Presbyterian General Assemblies up to the third day, we resume at that point.

Immediately after the announcement of the committees on Synodical Reports and the reading of the Church Extension report, Dr. Krebs reported on behalf of the committee appointed to select psalms and hymns and prepare a book with suitable tunes. The result of their labors was the "Hymnal," which has provoked so much criticism from, and against it. Dr. Krebs referring to the names said, that although not absolutely new, it is desirably distinctive in this day of confusing common titles in the rabble rout of cornets, flutes, harps, psalters, dulcimers, and all kinds of music, borrowed from Nebuchadnezzar's orchestra in the plain of Dura, and, the committee were prepared to sustain the report with arguments and examples sufficient to fill a wheelbarrow. Whoever, said he, owns the book will make a fortune, and I had rather this General Assembly should own it than any body else. Considerable time was then taken up discussing the Louisville Presbytery case. Rev. Dr. Nelson, representative from the New School Assembly, being present, was introduced and delivered an address of the most fraternal character, to which the Moderator, Dr. Stanton, replied in the same spirit. Fourth day.—After devotional exercises, report of the committees on the Church Extension Society, and Publication Society, were taken up and after discussion were adopted. A memorial from the Convention of Ministers and ruling Elders, held in St. Louis, with the name of Rev. Dr. Howard, of Pittsburgh, as President, was read and referred to the Committee on Overtures. It represented one hundred and eleven persons.—Dr. Van Dyke offered a paper as an antidote to the memorial, deprecating the continuance of the strife between the Northern and Southern Presbyterians, which was referred to the same committee. Dr. Stuart Robinson, of the Louisville Presbytery, sent in a paper, which was read. No action was taken. Fifth day.—Report from Committee on Bills and Overtures considered. Report of Board of Foreign Missions read, from which we learn the Church sustains missions in nine different countries and at 16 stations; have employed 75 ordained missionaries, 9 of whom are natives, together with 8 native licentiate preachers. There are 17 lay laborers from this country and 74 female assistants; 140 native teachers, with other native helpers; 427 scholars are taught in boarding schools, and 6,433 in day schools. The mission churches have a membership of 1,193, of which about 176 have been added during the year. Three deaths of missionaries have occurred during the year. The number of missionaries now employed is three more than was reported a year ago. The total receipts of the Board are $207,526.65; the expenditures $210,376.92, leaving a balance against the Treasury of $2,849.93. At the close of its consideration, the Louisville Presbytery case was resumed. Without reaching any action, the matter was laid over, to receive the Rev. Dr. Vermilye, delegate from the General Synod of the Reformed Dutch Church, who addressed the Assembly. Sixth day.—Shortly after the opening of the session, the Assembly proceeded to fix the next place of meeting. Cincinnati, Baltimore, New York, Danville, and Buffalo were nominated, but the first place named was selected by a large vote. Committee on Foreign Correspondence was called for, when Rev. Dr. Cosh, of the Free Church of Scotland, was introduced, who occupied almost the remainder of the morning session.

NEW SCHOOL.

Third day's session opened with a prayer meeting of some length, in which earnest prayer was made entreating the assistance of God to aid in the deliberations of the Assembly. At the close of the devotional services, the Committee on Ministerial Relief reported that $6,300 was contributed this year, against $3,600 the previous year. One hundred and thirty persons were helped against forty-four the year before. Committee of Conference, with a similar Committee of the O. S. Assembly, was ordered. Committee on the Judiciary, of which Judge Williams, of this city is a member, enquired, if after taking testimony in the case of an accused person, may they proceed to pass judgment thereon as if he were present, or shall he be left simply under censure for contumacy. It was decided affirmatively. Judge Foote suggested that the views of the body on the State of the country were expected. Committee appointed and ordered to report. Standing Committees announced much of the same character of the other body already published. Fourth day—The usual devotional exercises were held at the opening of the session. Rev. Dr. Harper, representing the United Presbyterian Church, delivered an address, to which the Moderator responded in appropriate words. Principal part of the morning session was devoted to considering the report on Foreign Missions. Report on Church Polity was presented. As the afternoon session report on Church Erection was read, recommending the abandonment of the system of loans, and the adoption of that of donations. Also, favoring the appointment of a General Secretary. Rochester, N. Y., was selected as the next place of meeting, on the third Thursday of May, 1867. Fifth day.—At the prayer meeting at the opening of the session, the subject was the evangelization of the world. First thing presented when the Assembly commenced the business part of the session, was, to hear the reports of the delegates to the corresponding bodies. Reports were made of visits to Congregational, Cumberland Presbyterian, and other bodies. Rev. Dr. McCosh, of the Free Church of Scotland, addressed the Assembly at some length, to which the Moderator replied briefly. Remainder of the session was spent discussing the Church Erection report, on "gift or loan," as the question was narrowed down to this principle. Sixth day.—The entire morning session was devoted to considering the report on Church Erection in all its bearings. Finally the principle was settled, as recommended by the Committee to give donations instead of loans, by a vote of yeas 182, nays 10, absent 24. The interests of Sabbath Schools occupied almost the entire afternoon session. Report on Church Erection, on motion of Judge Williams, of Pittsburgh, was finally adopted by a large majority. The seventh day was an excursion to Pine Knob.

—*Apropos* of Mr. Carlyle's enforcement of "silence" as a virtue, a good story is told by Professor Blackie, of Edinburg. In concluding his course of lectures, "he congratulated the students on the election of Mr. Carlyle as Lord Rector, observing that although he had enforced on them the virtue of silence, yet in his house at Chelsea, he kept the whole company silent, while he himself would talk on for hours."

—Garibaldi wrote to some of his friends, who were trying to press certain conditions on the employment of the volunteers on the Government: "I will hear nothing of conditions. I make no conditions. With the Austrian before us, no Italian has conditions to make. I—you—they—we go to fight him!"

GENERAL NEWS.

—Atlanta is to have a theatre.

—The Fenian news is portentious.

—Senator Wright is convalescent.

—There are two thousand licensed dogs in Cincinnati.

—The Soldiers' Convention assembles here to-morrow.

—Cardinal Rosti, the librarian of the Vatican, is dead.

—The Sanitary Committee of Philadelphia are busily at work.

—A boy two years of age died in Detroit from the effects of fright.

—Mary Ann Bostine died in New York at the advanced age of 118 year.

—The Democratic State Convention of Iowa will meet on the 14th of July.

—One hundred witnesses have been examined concerning the Memphis riot.

—Three children of emigrants died in Detroit of either the cholera or ship fever.

—Bourcicault has written a new play for Mr. Jo. Jefferson, entitled "The Parish Clerk."

—Mrs. Cloud, of Dearborn, Illinois, died recently, leaving a small family of 160 to mourn her loss.

—Harriet Hosman's income is set down at $15,000, all of which she chisels from the original rocks.

—Dr. or Duke Gwin's imprisonment and release had nothing to do—so his friends say—with the Sonora Colonization scheme.

—Patrick Connolly and William M'Cue were suffocated to death on Saturday in Philadelphia, in a cess-pool they were draining.

—A Toronto dispatch states that *La Minerve* publishes the announcement that the Pope has declared himself in favor of confederation.

—Judge Erskine, of Georgia, decides that the test oath, as applied to lawyers in the United States Circuit Courts, in the South, is unconstitutional.

—Gen. Fremont has sent $325,000 to Washington, by an agent, to pay the first installment of the purchase money on the South Pacific Railroad.

—The Hon. John Wentworth, just returned here from Illinois, says, to use his own expressive phrase, that "my policy" has "gone up" at the West.

—A delegation of Philadelphians went to Washington a day or two since, to ask the President and Gen. Grant to attend the Flag Reception on the 4th of July.

—V. Hugo has lately received from his publishers $50,000 on account. "The Toilers" brought him one hundred thousand francs—not dollars—as published.

—Senator Lane, of Kansas, rose to a personal explanation in the Senate on Monday and denounced as false, charges that he had received a bribe of twenty thousand dollars.

—Michigan is to be to the United States, in wood, what Newcastle is to England, and Pennsylvania to this country in coal, or California and Australia to the world, in gold.

—A rumor is circulating in Germany that, in case of war there, Gen. McClellan, who at present sojourns in Dresden, will be appointed Commander-in-Chief of the Saxon army.

—De Lave, the acrobat, proposes to walk a wire stretched over Niagara Falls, carrying his wife and son on his back. We know a good many husbands who would attempt the same thing.

—W. Veirs Bonic, Esq., of Montgomery county, and Frederick Stone, Esq., of Charles, have been named as conservative candidates to represent the fifth district of Maryland in the next Congress.

—In Utah Judge Drake has denied the right of the Territorial Probate Courts to naturalize foreigners; and has himself refused to naturalize foreigners who practice polygamy as being in violation of the act of Congress.

—Colonel Thomas A. Scott, Vice President of the Pennsylvania Railroad Company, notifies General Harrisuff that free passes will be issued to the delegates to the Soldiers' Convention to be held at Pittsburgh on the 5th.

—A machine is now in operation in New Jersey peat-bog which turns out twenty-five tuns of pressed peat per day. The peat is pressed into bricks, and comes from the machine as hard as bituminous coal, and much neater to handle.

—A desperate affair occurred in Paris, Ky., May 28th, between Charles Hilton and Noah Alexander. Alexander stabbed Hilton, severely but not dangerously, and in return received three pistol shots, wounding him very seriously.

—A grist mill at Middleton, N. Y., appears to have been "dealing death around the land" by infusing lead, with which crevices in the mill-stones were filled, into the flour and meal which it produced. The consequences are quite serious.

—The cholera on board the Peruvian seems to be of a peculiarly malignant type. There were thirty-eight fresh cases on that vessel yesterday. It must be remembered that this vessel was not over-crowded, and its general condition is described as being cleanly and healthy apart from disease.

—The programme for the European Congress embraces proposals that the Schleswig-Holstein question be submitted to the decision of the inhabitants; and that Venetia be added to Italy for a certain compensation, Italy guaranteeing the temporal authority of the Pope within its present limits.

—The project has been started at Chicago to dispose of the Crosby Opera House by lottery. The plan contemplates the purchase of a large number of the finest paintings in America, together with a myriad of engravings of the highest order, all of which will be distributed after the manner of the Art Union, the Opera itself forming the grand prize.

—London is moving in response to a proposition that a statue be erected in that city in memory of George Peabody. A public meeting to consider the project has been called by the Lord Mayor, on the recommendation of many eminent merchants. The benefactor of the London poor certainly deserves this honor at the hands of the rich men of the metropolis.

—"Bear" Miller, an old hunter 92 years of age, was in Reading last week, having walked from Maiden creek, a distance of twelve miles. He is a resident of Huntingdon county. He wears a beard about a foot long and as white as snow. He has killed in his time 70 bears, 50 wolves, and 500 deers. Notwithstanding all this, he looks as if he might live twenty years more.

—An ex-military officer in Virginia, a graduate of West Point, has just been complained of before the Freedmen's Bureau, for beating the mulatto mother of his 11 children over the head with the broomstick, and for other cruel treatment of her, though she is about to present him with their twelfth child. He justifies himself on the ground that God has placed him at the head of the household, and he is responsible for keeping order in it.

NATIONAL MILITARY ASYLUM.
The Managers of the National Asylum for disabled volunteer soldiers, authorized by Act of Congress, approved March 3, 1865, ask proposals for sites for Asylums by donation or sale. The premises must be situate in one of the Loyal States, contain at least 300 acres of land, be in a healthy location and easy of access by railroad or otherwise. It is the purpose of the managers to erect, without delay, extensive asylums in suitable places for said Asylums, and its establishment will be largely advantageous to any section or railroad in the vicinity of its location.
Plans, specifications and estimates for Asylum buildings, including detached outbuildings, are also asked for the approval of the Board. Liberal compensation will be given for the successful plan.
Proposals, plans, specifications and estimates—the first named to be in writing, containing plot and description of grounds and terms and conditions of transfer—must be sent to Major General B. F. BUTLER, at Lowell, Mass., on or before the 20th day of June, 1866.
BENJ. F. BUTLER,
President Board of Managers.
LEWIS B. GUNCKEL, Secretary.
Papers entitled to publish the Laws of the United States are respectfully requested to publish this three (3) weeks prior to the 20th of June, inst., and send their bill, with copy of notice, as above directed. je1:c5

SAVE THYSELF.
A CURE FOR INTEMPERANCE.
Dr. S. Cutter's Celebrated Stomach Bitters
The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and diseases arising from impurities of the blood. As a nervine is always the choice of the stomach, in all persons addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c. As it removes the morbid appetite, or craving of the stomach for stimulant, in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.
Ten years use of the improved English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation, for the cure of Dyspepsia, and gained for it the approval of the attending surgeons in all the hospitals and prisons throughout Great Britain, and is generally known by physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Paralysis, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent,

THE WESTMORELAND MURDER.

Probable Parricide—Son of the Deceased Charged With the Murder, Arrested and Lodged in Jail at Greensburg—Further Particulars.

In the *Gazette* of Friday last we mentioned the fact of the finding of the dead body of John Shale, on the 29th ult., on his farm, in Cook township, Westmoreland county, under circumstances which led to the belief that a murder had been committed. Joseph Shale, aged about twenty years, son of the deceased, was arrested on Friday and lodged in the Greensburg jail, developments causing suspicion to attach to him as being the murderer. We have the following fuller particulars:

On Monday Mr. Shale was at work in one of his fields. His three sons left the house together, the elder, Joseph, having a six-barreled revolver, fully charged. Joseph took a circuitous route, firing the pistol when separated from his brothers, as is alleged, although the latter could not distinguish one of the boys, thirteen years of age, testified that his elder brother had not parted company with them during the time they were gone. It appeared also in evidence that on Joseph rejoining his brothers two barrels of the revolver were empty, but he only accounted for one, saying that he had fired at a "chip monk." The next morning Joseph walked as far as Salem, five miles to consult a "fortune teller," living near Laurelville, as to where the body of his father could be found. He stated that he found it, by following her directions, at two o'clock in the afternoon. This story is not believed.

It appears that there was some trouble between the father and son, in regard to bounty money, received by the latter for enlisting in the army. He had sent three hundred and fifty dollars to his father for safe keeping. The enlistment and receiving of the bounty money was against the father's wish, the boy being under eighteen years of age. He was to have been married on Thursday of last week to a young lady, but the father, not approving of the match, refused the son's request for money, says that the latter (the same son) became capable of taking care of money only when he give him the amount he asked and as much more. Mr. Shale had over three hundred dollars in bonds in his possession when he left the house, but they were not found with his body.

Mr. Shale was struck by two balls, one entering at the eye and passing out at the back of the head, and the other entering back of the ear and passing out on the opposite side. It would appear that he threw up his left hand, after receiving one of the balls, as one of his fingers was lacerated, probably by the ball which entered at the eye.

Deceased was highly respected for his honesty and integrity, while the accused son is said to have been wild and reckless. When pressed money he would run bills at stores in the town of Ligonier, which the father was required to pay. The circumstances are strongly against the boy, but says our correspondent, will forbear further comment until additional evidence or opponents are made. What I have stated may be relied upon as correct, as near as such things can be when collected from an excited populace in a country town."

One thousand dollars reward had been offered for the arrest of the murderer, Mrs. Shale, the wife of deceased, herself offering five hundred dollars.

Another account is that Shale was killed while in the act of putting up a fence, and that the assassin must have held the weapon close to the head of his victim, as part of the exploded cap was found in the head. The son under arrest is stated to have testified before the Coroner's jury that a fortune teller told him that his father had been killed by three men who had been lying in wait for him for some time. The jury in their verdict implicated no one in the crime.

A rule has been granted in the United States Circuit Court, on motion of Messrs. Hamilton and Acheson, requiring the Controller and Presidents of the Select and Common Councils of the City to answer the following interrogatories:

First. What moneys were on hands on the 6th day of January, 1861? And what disposition has been made thereof?

Second. What moneys of said city have been received since said date? And what disposition has been made thereof?

Third. Since the 9th day of January, 1866, what funds of said city have been under the control of the Finance Committee of Councils, or any other committee authorized to settle with judgment creditors of said city? And what disposition has been made of such funds?

Fourth. Is there any fund now under the control of any committee of Councils having authority to settle with judgment creditors of said city? If so, state the amount of that fund and in whose control it is?

Fifth. Since the ninth day of January, 1866, has there been any fund out of which the fo egoing judgments and unsatisfied balances might have been paid? If so, why has that fund not been applied?

Sixth. Why have not said judgments been paid?

Seventh. Has any provision been made for the payment of said judgments? If so, state particularly what provision has been made, and where made?

The interrogatories will be answered in due time, after which we presume the attornies for the railroad bondholders will take steps to coerce payment, regardless of the compromise arrangement.

Select Free Entertainment.

Under the auspices of the Iron City College, at their Lecture Hall, corner Penn and St. Clair streets, on Monday evening, June 4th, Professor Hutchings, the original, far-famed Lightning Calculator, of New York City, will repeat his novel, wonderful and humorous entertainment given recently with such distinguished success at the Cooper Institute, New York. First—Lecture, entirely new and original, abounding with sparkling gems of pathos and wit, and properly called the sensation of the age, entitled "Me and my Wife." To be followed by his repertoire of forty astounding experiments in figures. Intermission of five minutes. Second—Blindfold Experiments. Those desiring reserved tickets will do well to call to-day at the above College and procure them, as the Lecture at eight. Doors open at seven. Ladies especially invited.

From the Boston Courier.—A few of Irish anecdotes might serve as a lesson to Barney Williams himself, while the imperturbable Barnum would be made to laugh at the stories told in his favor, and at his cost."

Appointments by the Surveyor General.

The following are the appointments, complete, of clerks in the Surveyor General's office: Theodore K. Babcock, Chief Clerk, Cambria county; A. F. Armstrong, Franklin county; Wm. Evans, Indiana county; H. A. Caldwell, Blair county, William H. Seibert, Schuylkill county; J. W. Biundin, Philadelphia; L. M. Hicks, Somerset county; Alfred Tyhurst, Huntingdon county; A. B. Yoder, Dauphin county; P. McCurdy, Dauphin county; L. Stroup, Philadelphia; Samuel Ake, Bedford county; John E. Bartner, Lancaster county; Samuel Hamilton, Beaver county; T. J. Black, Messenger, Dauphin county.

Sentenced for Manslaughter.—In the Court of Quarter Sessions, on Saturday, Peter Stewart, convicted at the March term, on two indictments for burglary, was sentenced to six years imprisonment in the Western Penitentiary. Joseph M'Call, and Christian Rosin, convicted at the same term on a similar indictment, were sentenced to the same institution, each for three years. They were "taken over" by Sheriff Barclay this morning.

OUR EARLY TELEGRAMS.

THE FENIANS.

Fight in Canada on Saturday—The Fenians Routed by Canadian Volunteers—Large Loss on both Sides—Bridge Burned—Boats Fired into by United States Vessels—English Troops at Fort Erie—Proclamation by Gov. Fenton, of New York—Militia to be sent to the Frontier.

TORONTO, C. W., June 2—12:25 P. M.—Last night the forces at Port Colborne were augmented by the arrival of the Toronto University company. Early this morning the troops took the train to Ridgway. They are under command of Colonel Booker, Colonel Dennis having gone on an expedition down the river. Three miles from Ridgway station the Fenians were found encamped in the bushes. The column at once attacked them, the Queen's Own firing the first shot. The fight now became general, the volunteers driving the Fenians. A number have been killed on both sides. The volunteers behaved splendidly, rushing at the retreating Fenians with the utmost gallantry. It is thought that the volunteers will at least hold their own until the arrival of the British regulars and artillery.

BUFFALO, June 2—9:25 A. M.—The latest news from the Fenian camp states that the whole Fenian force is moving. It is stated that the bridges across Frenchman's Creek and Miller's Point was burned last night. Telegraphic communication with Canada is open.

Niagara river was patrolled last night by the United States steamer Michigan and tugs Harrison and Farrar.

Canadian accounts represent that the Fenians will find themselves very much disappointed in expecting aid from their brethren and friends in Canada.

BUFFALO, June 2—11:50 A. M.—It is understood that the patrol tugs fired on and stopped several boats last night, trying to reach the Canadian shore. We learn that the intended proclamation from the Fenian leaders to the people of Canada, is now in the hands of a gentleman of th s city, and was expected to have been issued yesterday if affairs had warranted.

English troops now occupy Fort Erie. It is not yet known whether the reported fight at Ridgeway was with a portion of Fenians who were at Fort Erie yesterday or another party. It is understood that the first Erie Fenians went down the river. Ridgeway is seven miles up the lake towards Port Colborne.

It is stated that the steamer International has arrived at Fort Erie with troops from Port Colborne. It is reported that the English are retreating from the Ridgway fight. There are no particulars.

NEW YORK, June 2.—A dispatch from Albany says: Governor Fenton will issue a proclamation to-day, warning the citizens of the State against countenancing the Fenian invasion of Canada; also, that twelve regiments of militia are to be sent to the front, or, drawn from the counties of Niagara, Monroe, Onondaga, Oswego, Jefferson and St. Lawrence.

A dispatch from Montreal says it is reported that the Fenians have seized the arms at Rouse's Point, and were marching on the British fort at Isle Auxnoix. Also that the Canadian Government had been informed that the United States gunboat Michigan has intercepted some Fenian reinforcements to those at Fort Erie.

British troops were marching from Hamilton to capture the Fenians at Fort Erie.

A Buffalo dispatch says the Michigan is patrolling the river from Black Rock to the head of Grand Island, with two armed tugs, with orders to sink anything crossing during the night.

A dispatch, dated Frenchman's Creek, Canada West, at 1:30 yesterday, says: Fifteen hundred Fenians, under General O'Neil, crossed the Niagara from Buffalo, captured Waterloo, and Fort Erie, tore up a small portion of the track of the Buffalo and Lake Huron Railroad, and cut the telegraph wires leading to the Canadian interior. They then moved down the river toward Chippewa, halting at Frenchman's Creek, where rumors prevailed of the advance of Canadian troops.

Breastworks were hastily constructed, as the Fenians were put in line of battle. A man had just come in wounded in the leg. Skirmishers were pushed to the front, and flanking columns sent down the double quick, and every preparation made for an eng gement.

RUTLAND, VERMONT, June 2, 1:30 A. M.—About 150 Fenians passed through here this morning en route North. They were in charge of officers wearing side arms and were mute as regards their destination or object, but from parties who arrived on the same train with them, we learn that they intend to bring up at or near St. Albans, and there await further instructions from the commander of the army of the Irish Republic in Canada.

MONTREAL, June 2.—There is considerable excitement here over the Fenian news. Nearly three hundred men have left here for Canada. About seven hundred passed through Indianapolis on Saturday for the border. Dispatches from Columbia deny the report of the purchase and shipment of arms and ammunition by the Fenians from that city.

FROM WASHINGTON.

Jeff. Davis and his Alleged Complicity in the Assassination—Citizens Leaving Alexandria on Account of Heavy Taxes—Business Confidence—Income Tax—Pardon of Richard S Cox, &c.

NEW YORK, June 4.—The morning paper contain the following special dispatches from Washington:

It is said that there is a prospect that the House Judiciary Committee will make a report next week of the result of their investigations as to the alleged complicity of Jeff Davis in the assassination of Mr. Lincoln. Much of the testimony recently taken has been with reference to the antecedents and character of the witnesses who are relied upon to make out a case against Davis. The testimony so far is damaging in the extreme to the witnesses thus relied upon. Most of them are shown to be abandoned characters and villains of the deepest dye.

The citizens of Alexandria are moving beyond the corporation limits to escape their outrageous taxes. Independent of the internal revenue, United States license, State and county taxes, the city expects to raise $200,000 out of a population of 8,000 whites and blacks. Two-thirds of the houses are for rent, and business is being driven from the place. The Adams Express Company having been assessed $50,000 by the rebel municipal authorities among those who are leaving the city.

The Treasury Department has issued a circular and sent a copy to every postmaster receiving over $3,000 from his office, requiring him to show that he has paid his income tax. Grover & Baker have applied for a re-issue of their fourteen years patent. The time for filing arguments in opposition is Monday, June 4th.

The United States District Court will meet in Richmond on Monday, and the case of Jeff Davis will be called up. District Attorney Chandler will move its continuance to the October term. The counsel for Davis will then ask that bail for the prisoner be fixed.

The President has pardoned Richard S. Cox, of the District of Columbia. Mr. Cox was pardoned under the tenth exception of the Amnesty Proclamation, excepting those from the general amnesty who voluntarily left their homes in a border State to aid in the rebellion.

It is said that Mr. O'Connor will be in Richmond on Monday to appear in the trial of Jeff Davis. It is not expected that the trial will go on, but O'Connor is to appear for the purpose of claiming his right to bail if he is not tried, and to be set at large under the bail. A similar statement is current in Johnson circles.

The Cholera in New York—Seven Hundred Emigrants Detained at Quarantine—Attempt to Burn one of the Ships.

NEW YORK, June 2—At the meeting of the Metropolis Board of Health yesterday, Prof. Schoitz, from the Committee which was recently appointed to confer with the quarantine commissioners, and the commissioners of emigration, reported that the joint commission sought everywhere for a suitable spot whereon to land unin fested emigrants who may arrive in cholera ships, but the inhabitants of Long Island, Staten Island, and the New Jersey coast are dangerously hostile, the militant under any circumstances surrender the lives of their wives and children.

Mr. Bergen remarked that but for the merchants of New York the last Legislature which have passed an act enabling the Board to occupy a suitable spot under the right of eminent domain.

Dr. Swinburne reported that more than seven hundred emigrants are in detention at quarantine, and that last week they attempted to burn one of the ships. He further added the alarming statement that another cholera ship arrived to-day he could not provide accommodations for her passengers. Forty thousand three hundred emigrants arrived at this port during the months of May, and the seven hundred not counted above came in the cholera ships now lying in quarantine.

General Steedman's Investigation of the Freedmen's Bureau—Trouble Between Whites and Blacks Anticipated.

NEW YORK, June 2—The *Herald's* correspondent attending General Steadman's investigation of the Freedmen's Bureau affairs says: The investigation finds considerable improvement in the workings of the bureau in those localities as compared with its operations in Virginia, North Carolina and South Carolina, some time ago. A British American negro from New Brunswick, attempted to found an empire on one of the Georgia islands, but he was soon deposed, by his superior of the Bureau.

Trouble appears to be brewing between the whites and blacks in Florida, growing out of the sales of rebel lands for taxes. A repetition of the Memphis and Newbern riots is feared.

FINANCE AND TRADE.

SATURDAY, June 2, 1866.

Gold opened this morning at 140¼, which is a decline as compared with yesterday's rates. 1881's and Seven Thirties advanced a quarter per cent, but when gold leaped up to 141¼ the advance on all government bonds was lost, and Seven Thirties declined to 103⅝@103¾. There is a remarkable disposition manifested on the part of holders of Seven Thirties to exchange them for Five Twenties, and realize the difference and interest in addition.

The rather gloomy character of the news from the money centres of Germany is discouraging; the Germans seem anxious to realize on investments that will be endangered during the coming war, and this, as a matter of course, produces considerable embarrassment and confusion. It is not natural to suppose that foreigners will invest in our securities, and thereby stop the outflow of our coin, on the contrary, we must look for large shipments of our bonds back on us, and the sooner gold or exchange advances to the highest point, the better for the country at large, though inconvenient it may be for those who had made up their minds that we were rapidly approaching a specie basis, bought goods for gold on time, and disregarded all fundamental rules laid down by the best writers on political economy.

Our local money and stock market is dull and unchanged. Bank and Insurance stocks not much inquired for except at low rates, and in anticipation of dividends. In oil stocks, the feeling is rather better. Some of the companies that have not given any signs of life for many months, are beginning to revive again, and it is to be hoped, since the tax has been taken of oil, that they will be enabled to pay off their debts and declare dividends.

Mr. P. R. Mertz's New York quotations today were as follows: Gold, 141¼; 1881's, 109½; Five Twenties, 102¾@102¾; Ten Forties, 95¾; Seven Thirties, 103¾@103½; Certificates, 100. C. & P. R. R., 80¼; P. F. W. & C. R. R., 97¾; Bennehoff oil, 12¾; Pithole, 2¾; United States; 5, Gregory Gold, 11¾.

The "Enterprise Oil Company" of Green County, announces a monthly dividend of two per cent; and the "Ralston Company," of Venango County, has also declared a monthly dividend of two per cent.

The lands along Oil Creek are estimated at a bona fide cash value of two hundred and fifty millions of dollars. Many portions of these lands have been sold at prices that would bring the whole at the same rate to this sum in the aggregate. The distance is but little over fifteen miles, and the valley narrow throughout its entire extent, so that an idea can be readily formed of the immense wealth contained in its bosom.

—The panic in Great Britain seems to have been entirely confined to England. The Glasgow *Herald*, of the 15th inst., says:

"It is satisfactory to know that in the midst of the panic which has disturbed so distinguished, and we believe, causelessly, the various markets of the country, the Scotch banks were never sounder, more prosperous, or their resources more ample than now. Trade with us is generally sound, and in many departments there is much briskness. Any panic felt in this quarter has been confined almost entirely to the stock exchange, where much valuable property has been thrown away at prices preposterously below their real worth, and what, when the storm blows by, they will again speedily attain."

—The Philadelphia *Ledger* says:

If the Seven's has brought any very important accession of 5-20s, they have not yet made their appearance on the market. It is thought quite probable that bonds have been strictly held with instructions to sell within a certain limit, which, at the present price of gold, proves to be impracticable. Considering, however, the extreme stringency of money in London, it is not probable that many bonds could be sent here on speculation. Under all the circumstances, it is likely that the Seven's will take back quite as many bonds as she brings, and so save a corresponding amount of gold.

—Among the foreign failures announced, the news of which was brought by the Persia, are those of Boult, English and Brandon, at Liverpool, also Holderness & Clifton, Duff, Cadell & Co., Grannacopito & Co., and others, nearly all connected with cotton. There were likewise rumors of the failure of a large Manchester house. Cotton was quoted at 12d in the Liverpool market, influenced by the heavy failures in the trade. The price in the New York market is now quoted at 38@40c, a decline, but still above the foreign market, thus saying large exports. A circular from the *Java* gives the following statement of the movement in cotton since the first of September last: Receipts at the ports of the United States, 1,827,000 bales; exports to Great Britain, 1,109,000 bales; exports to France, 184,000 bales; exports to other foreign ports, 66,000 bales; total exports, 1,359,000 bales; total stock on hand, 372,000 bales. Until cotton can be shipped with profit we shall continue, no doubt, to export large amounts of specie. The news from the Havana is not favorable for this year's crop, a good portion of which, in some quarters, has been destroyed by overflow, and injured by long-continued wet weather in others. It is estimated that but three-fifths of the usual cotton land has been cultivated; yet, small as this may seem, it is generally believed to be more than there is labor to cultivate and pick. Estimates of labor in consequence have been reduced about one-fifth. It will thus be seen that an advance in price is probable, and any check of export now will be the holders gain.

Finance and Trade in New York.

NEW YORK, June 2.—The money market is easy, and the demand on the stock exchange is freely met at 6 per cent, while some balances were loaned at 5 per cent. Prime discounts are current at 6@7 per cent. The stock market was firmer this afternoon towards the close, and there was a rally from the lowest point at the 1 o'clock board. Gold closed at 141¾, after selling at 141¾. The total export for the week was $8,70,907.

The Government securities were firm this afternoon. The market for petroleum and mining shares was quiet this morning with very little change in prices. The business of the week was light.

The *Commercial's* money article says: The stock market presents its usual Saturday appearance. Business is kept in the suspense by the uncertainty as to the future course of Erie, now largely under the control of the consolidated directors, and there is a disposition to defer operations until it is more apparent what is likely to be the course on the consol stock.

At the close the Erie was firmer, opening at 69¾, and advancing to 69¾, but declining subsequently to 69¼. New York Central remains firm at 97@98. Cleveland and Pittsburgh the course appears to be toward lower prices, under the realizing of the clique. Reading is firm at 100. Governments continue firm at Thursday's quotations, except 1880-90, which are better. Money is a shade easier. The balance are offered freely at 5 per cent, until Monday, but the general rate on call loans is 6 per cent. Exchange is active. Lenders are disposed to take liberally at current rates; prime names are quoted at 60@7 per cent. Gold is less active but steady. Very great disappointment is felt in relation to the action of the Erie directors in accepting further loans from Mr. Drew. It appears that recently the company borrowed a further sum from the latter gentleman on its total indebtedness to him of $175,000 upon 20,000 shares of common stock as collateral, the 10,000 shares returned by Mr. Drew some months since having been rehypothecated to him. Mr. Drew has made further proposals to lend the Company any portion of $1,800,000, accepting the collateral the conversion bonds of the Company at the rate of 60 cents on the dollar, so that in the event of the Company taking up the whole amount offered, the amount of these bonds privately converted would be $1,080,000. The Company is to be at liberty to repay the loan, or any part, at pleasure, after ten days' notice, or has the option of allowing the loan to run two years without the liability to put up a fourth margin. Mr. Drew, on the other hand, stipulates for the right to convert the bonds into stock at pleasure, so to turn the collateral in the form of stock, and to use the collateral as he may please. Mr. Drew's proposal was accepted at the meeting of the Board of Directors held this week. No part of the loan has yet been taken up, but of course the acceptance of the offer implies that the Directors contemplate acting upon it.

The closing prices of stocks were: Canton, 69@69½; Quicksilver, 52@52¼; New York Central 98@98¼; Erie, 91@69¾; Reading, 100@100¼; Michigan Southern, 104@104½; Cleveland & Pittsburgh, 94@95; Rock Island, 92½@92¾; North Western 28@28¼; do. preferred, 58½@59; Fort Wayne, 97½@97¾.

Receipts for the week were 2,000 tons. Shipments 1,000 tons. Stocks on hand 5,000 tons.

Philadelphia Iron Market.

PHILADELPHIA, June 1.—Prices of pig metal are firm, and there is considerable trade doing at previous quotations. Sales of 500 tons No. 1 foundry at $61; some No. 2 hard at $60, and 1000 tons of forge at $57 per ton. Scotch pig is quiet at within the range of previous quotations. Blooms—the inquiry from all sources is rather light, but prices are firm, and no transactions since our last have come under our notice. Manufactured iron—The inactivity which has pervaded the market for some time past still continues.

Buffalo Market.

BUFFALO, June 2.—Flour in moderate demand. Spring wheat, western, $9,00@10,00; Genesee, $10,50@11,25; extra State, $10,00@10,50; white extra western, $12@14. Wheat scarce and unchanged. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 2, 1866.

The produce markets were moderately active during the week which has just closed, and the receipts of Flour and Grain have been very large. There has been a continued fair local demand for most of the leading commodities, but the fluctuations in values have been slight either way.

GRAIN—Wheat is firm and in good demand sale of 2 cars Club at $2,20. Oats continue to arrive very freely, but the demand seems to keep pace with the supply; sales at elevator at 35@36, and from store at 40. Corn is unchanged; sale of 3 cars shelled at 80; 2 do do at 82; 1 do do at 83. We can also report sales of 32 bags Rye at $1, 1 car prime Spring Barley at $1; and 300 bush Buckwheat at $2,25.

FLOUR—Is firm, with a continued fair local demand but prices remand unchanged, at $10,50 to $11 for Spring Wheat; $11,25@11,50 for mixed and $12@12,75 for all Winter Wheat. Rye Flour is selling at $6,50@6,75.

PROVISIONS—Bacon is firm but unchanged at 14½@14¾ for Shoulders; 17@17½ for Ribbed Sides; 21½@22 for Plain Sugar Cured Hams, and 23@23½ for Canvassed do. Lard is quiet but steady at 22½@23 for prime city. Nothing doing in Mess Pork.

BUTTER—The demand is again less active, and unchanged. Sale of 20 packages of prime fresh packed, on speculation, at 26c. Fresh Roll is held at 27@28.

EGGS—In fair demand but irregular; sales of 30 bbls at 23, 24 and 25.

CHEESE—Western Reserve is selling at 16@18, as to quality, and Goshen at 21@22. Receipts increasing.

POTATOES—Quiet and a little dull but unchanged. Sale of 1 car prime Peach Blows, on track, at $3,25 per bbl; and 1 car do at $1,25 per bush. From store sales at $1,35 to $1,50 per bu, and $3,40 to $3,50 per bbl.

HAY—Is selling in a regular way from scales at $24 to $28 per ton. Baled Hay is in light supply, but the demand also, is very light.

PIG LEAD—Sale of 200 pigs at 11.

SEEDS—There is little or no inquiry for either Clover or Timothy Seed. Flaxseed is in good demand at $2,85.

SORGHUM—The sales have been fair during the last few days at 40 to 45 for inferior, and 55 to 60 for prime.

SALT—The demand is improving, and No. 1 is still quoted firm at $2,40, on track, and the usual advance for small lots from store.

BEANS—Prime small White may be fairly quoted at $2 per bush, and common at $1,50 to $1,75.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 2, 1866.

CRUDE—The market for crude was dull and weak to-day, owing to the prospect of large arrivals early next week; and, generally speaking, holders were anxious to realize, even at a slight reduction. Sales of 324 bbls at 14; 150 at 14; 500 at 14; 108 at 14¼; 60 at 14½; 250, 130 at 1 150, all at 19, packages included; and 387 at 19½, free on board cars. The market, comparatively speaking, has been dull and neglected throughout the entire week, the demand for home use as well as for shipment, having been very slight, while prices have not fluctuated more than half a cent per gallon either way.

REFINED—There was not a single transaction in bonded oil to-day that we could hear of, and the market continues dull and weak, with a downward tendency. We are cognizant of 41½ to 42 having been offered for June delivery in Philadelphia, and we know of offers having been made to sell at 44 for July delivery, in Philadelphia. During the week sales have been made at 35 for June; 40 for September, and 41 for October, to be delivered free on board cars here, and there was also several sales (the particulars of which were kept private. In free oil there is nothing doing of any consequence, the demand being very light, and confined almost entirely to supplying the wants of the local trade.

ARRIVALS—The arrivals of oil are beginning to increase already, and next week, the receipts will, without doubt, be large. We have the following reported to-day:

Jas. Wilkins	100	Fisher & Bro
W. Halderman	410	Mawhinney & Co
D. H. Edgerton	151	E. Sellers
C. Berringer	150	F. Schaffer

Review of the New York Grocery Market

(From the Commercial List, June 2)

Coffee—Brazil continues depressed, the light demand and large stocks weighing heavily on the market. Our quotations are unchanged, but must be considered rather nominal, though we notice rather more inquiry from consumers, but only at low valuations. The steamers advices, to hand yesterday, to 4th May from Rio, are calculated rather to strengthen the views of holders, inasmuch as they speak of light shipments to the United States, a great scarcity, and high prices for prime qualities. The new crop, which is understood to be a full average, will not be in till September or October. Stock 110,000 bags. Exchange 24@61. Freights 40s, nominal. The sales of Rio are 1041, per Pfeil, to arrive here from Wilmington N. C., on private terms; 138 do here, from Europe, 50 do, on private terms, and 100 do, which is stated to be 226 bags, per Redwing, in Baltimore, have changed hands at 19 cents gold. We notice besides, 300 bags Java at about 25½c; and 170 do Laguayra, 19 gold.

Sugar—The market for raw for the two business days (Wednesday and Thursday) was steady and uniform, with a fair demand both from Refiners and Trade, at the currency of Tuesday last, closing with increasing strength at the close, as prices of gold had an upward tendency. Refined is in moderate request, and prices have varied but little; we quote other than Stuart's, 16¾@16¾c, for hard; 15@15¾ for soft white; and 14@14½ for yellow. The sales of raw are 1000 hhds at 13¾@14c; 38 bags do 13¾; 300 bbls Clarified do 15¾; 571 hhds Porto Rico, 16½@13½; 18 hhds and 61 bbls Martinique, 14½@15½; 20 hhds Clarified Guadaloupe, 15½; 141 bbls Java, 25@26; 1297 bxs Havana, 9¾@11¾; and 400 hhds Melado, 9¾. 1 mos. By auction, 125 hhds Muscovado, damaged, sold at 9¾@10c cash. The stock on hand was about 85,000 hhds, 70,000 bxs, and 110,850 bags. The official statement will be made up to-day.

Rice—There is a steady fair demand, and the market is supported, especially for currency; the sales are 65 tcs Carolina at $12@12½ currency; 100 bags Rangoon, $7,12½, duty paid; 600 do, in bond, $3,30, both gold; 3800 do in lots @5,25@5,75 currency; and 1200 do East India, to arrive, on terms we did not learn.

Molasses—The sales have been fair during the last few days at 40 to 45 for inferior, and 55 to 60 for prime.

SALT—The demand is improving, and No. 1 is still quoted firm at $2,40, on track, and the usual advance for small lots from store.

BEANS—Prime small White may be fairly quoted at $2 per bush, and common at $1,50 to $1,75.

Chicago Market.

CHICAGO, June 2.—The Flour market is quite active and prices are firmly maintained by local demand, but there is no material alteration to notice in values. Sales foot up 8,000 barrels, at unchanged quotations or $8,75@11,50 for common to fancy brands of Spring Wheat, and from $8@8,25 for Spring Superfine. Wheat is dull and without any change. No. 1 Spring, regular, sold at $1,63@1,65, and in the North-western at $1,60. No. 2 Spring is neglected, with sales at $1,60, for lots in North Side elevator. In the Chicago market is steady with buyers of No. 1, regular, at $1,62, and sellers at $1,65. Corn opened rather firm but fell back and receded 1c before noon. It subsequently rallied, however, and advanced to 52¾@53c, at which the market closed, steady for fresh receipts of No. 1. Sales foot up in the neighborhood of 240,000 bushels, at 50c for No. 1 and 51c for High Mixed, afloat; 50@52c for High Mixed, free on board; 52@53c for No. 1 in store; 50@53c for Yellow; 50@51c for No. 2, and 48@49c for Rejected. Oats are fairly active and steady at 32c for No. 1, and 30c for No. 2. Rye is steady and in good request at 90c for No. 1, and at 86@87c for No. 2 in store. Barley is still but firmly held. Highwines in bond are in fair request at 23c, but free Wines are offered freely at 25,15 without buyers. Provisions are firmly held. Mess Pork is selling at $30,75@31. RIVER NEWS.

ARRIVALS.

Forest City.....Gordon.....Parkersburg.
Armenia.....McMunn.....St. Louis.

DEPARTURES.

Glasgow.....Johnston.....St. Louis.
Robt. Moore...Maratta.....Cincinnati.
Argonaut No 2.Richmond.....St. Louis.
Forest City....Gordon.....Parkersburg.
Echo.....Mordon.....Oil City.

The river rose considerably during Friday night and Saturday morning, but from Saturday evening to Sunday evening it receded about two inches, the pier marks indicating four feet eight inches in the channel. At Oil City, on Saturday forenoon, the Allegheny was receding, with thirty-eight inches in the channel, and later intelligence says it is falling rains, and we shall not be surprised to hear of another rise in that stream. Here, the weather continues sultry and unsettled, with frequent showering tendency.

The Armenia, from St. Louis, is the only transient arrival we have to record. The Nora, from Cincinnati, will doubtless arrive here to-night or to morrow.

The Robt. Moore, for Cincinnati, and the Glasgow and Argonaut, for St. Louis, constituted the departures.

The Glasgow took out between three and four hundred tons of freight, consisting mostly of glassware, and the Robt. Moore, also had a fair trip, bringing all she could stow away. The Echo left for Oil City between six and seven o'clock, on Saturday evening, with a very good trip of both freight and passengers.

The competing boats Chieftan and Fayette cleared for Brownsville on time, with very fair trips. The feeling among the friends of the two lines is getting pretty bitter along the river.

Messrs. Morris and Ferguson went out as pilot on the Glasgow; Hart and Kountz on the Robt. Moore, and Marcellott and Bobow on the Argonaut.

The Tahlequah is loading at Cincinnati for Pittsburgh—she was advertised to leave on Saturday.

The Kate Putnam, Capt. W. S. Evans, will commence loading this morning for Cincinnati and Louisville, as will also, the Columbia. Capt. R. J. Porter, and the Importer, Capt. John Noss, for St. Louis. These are all first class boats, and are in charge of careful and experienced officers.

A writer in the London Mechanics' Magazine suggests a plan to save a sinking ship, or boat, that should attract attention. If a boat is sinking, and supposing a leak, to the Muskoka hole in the hull, the crew, instead of manning the pumps to keep out the water, should be set to work pumping in air. As boats and vessels are not exactly air tight, the substitution of air bags is suggested.

The City of Memphis, which recently exploded her boilers and burned on the bank of Mississippi, belonged to the A. & M. S. S. Co., and was provided with old style flue, not tubular boilers. She was a large passenger and freight steamer, and built by Capt. Wm. Kountz, ten or eleven years since. She was insured in Cincinnati offices, but the loss will fall on the A. M. S. S. Company, as the underwriters do not insure against explosions.

STEAMBOATS.
